You want danger? I'll show you what danger is baby!
What are you talking about?
Gateway to Hell

Ahhh
Gateway to Hell

We try and remember
What's right and wrong
We seem to forget
Where we belong

Somebody talks
Assaulting your tongue
Discussing your life
And where you belong
You're not real
We used to think so
You're not real
We used to think so

G-G-Gateway to Hell
What are you talking about?

We try and remember
What's right and wrong
We seem to forget
Where we belong

Remove the scum
And fill in the holes
No Kingdom Come's
Awaiting in gold

Your'e not real
We have to think so!

You're not real

G-G-Gateway to Hell
